What Are Talismans And Amulets

The sole purpose of a talisman is to attract benefits, angelic blessings and opportunities to its owner. However, in carrying out this task the talisman must function in accordance with the supreme celestial law which states that humans are free to follow their heart's desire and seek happiness and security by whatever means are available to them including the use of holy talismans. The celestial power contained within each talisman must always look after the best interest of its owner. However it may not harm or cause stress to any living creature whilst carrying out that function. Talismans are genuine procurers of angelic friendship, guidance & blessings and they can only ever act on a positive level, by attracting only positive and beneficial Angelic & planetary blessings to their owners. Talismans works in a positive way, by attracting the angelic blessings necessary to create whatever affect or benefits its owner may desire or need to help make their life a happy, positive and spiritually enhancing experience. As the owner of A talisman positive and creative angelic energy will transfer itself from the talisman to your life path and help create positive influences in every aspect of your daily life, helping you to realise your deepest desires &

ambitions.

How Does A Talisman Work

Some experts claim the power of talismans depends entirely on the faith their owners place in them. However, this theory is totally disproved by experience; talismans work just as well when their owners are sceptical or even unaware of their magical purpose. They may work by influencing their owners mind. However they succeed not merely because of the confidence they inspire, but because they are attuned to the natural creative laws of the Cosmos and endowed with the holy words of creation. Even if a talisman is simply worn as an unusual item of jewellery, its owner is guaranteed to receive a host of positive benefits and blessings that they would not otherwise experience. True talismans make ideal & thoughtful gifts for friends & loved ones.

Scientists now agree that according to the laws of quantum mechanics, matter can be in two places at the same time. It can even be millions of lights years apart and still be connected without physical contact. Scientists also agree that there are numerous other dimensions and plains of existence beyond our own. The ancients may not have fully understood our new science of quantum mechanics; however they did entirely understand how to harness its spiritual mathematical properties for their own benefit. They called this spiritual energy Magi, which meant supreme wisdom. The Wise-men who practised this ancient science became known as the MAGI. These priests of nature created talismans to harness the unseen and highly beneficial spiritual forces of the Cosmos for the benefit of all humankind. The ancient Magi believed that good fortune and even divine protection had the ability to store itself in an object or talisman and that it could and would re-emerge whenever it was required by its owner. The Magi categorized the various kinds of good fortune into: Luck with money, Luck in love, Luck in career etc... and created powerful talismans imbued with divine cosmic energy and animated by the holy names of the

angelic forces having supremacy over the desired blessings they wish the talisman to bestow on its owner.

Who Were the Ancient Wonder Workers Known as the Magi?

The working principle behind the celestial power of all true Western talismans can be traced back at least 7000 years to Sumeria and predominantly to the biblical city of Ur. Ur was home to a remarkable priesthood that can best be described as priest/scientists known historically as the Magi. The Magi were extraordinary holy-men who believed the real purpose of religion to be the scientific study of creation and the Creator. Unlike our present age, science and religion was regarded as two sides of the same coin. This was not the contradiction it seems to be in our present age. Investigating any natural formula without also investigating the spiritual side of nature was considered illogical. Through their in-depth investigation of both the physical & spiritual side of creation, the Magi came to the following conclusions {1} All created things are number meaning all life & physical phenomena is made up of transcendent mathematical patterns with an underlining creative reality consisting of waves of pure spiritual consciousness. {2} all matter and physical experience is an illusion. {3} everything is energy and all energy is spirit. {4} Every part of creation both physical & spiritual has a unique consciousness and is interconnected across time & space to everything else. The Magi believed that how a person chooses to use their consciousness to view reality will cause that reality to come into physical existence. If you think about it, this is obvious if the Magi are correct that all matter & physical experience is an illusion and the product of pure consciousness.

The wheel has now come full circle when today's physicists seem to agree with the ancient Magi. Today's physicists including Hawkins have stated that, to their surprise, any physicist investigating the quantum world {the Magi called this the spiritual world} seem to always get a result in line with what they expected. The Magi believed that every person is born surrounded by infinite waves of pure spiritual consciousness made up of every possible reality. If someone wishes to change any aspect of their life, all they need do is make a conscious effort to view the reality they wish to experience in their minds eye. This will cause part of their present reality wave to disintegrate and physically transform into the new reality they wish to experience. The Magi maintained that the waves of infinite reality every person is born with could be accessed and modified whenever they wished. The Magi clearly state that the way a person consciously views their own reality will cause that view of reality to manifest into physical existence. This would imply that we should all take great care to minimise any negative thoughts and always strive to maximise our positive thought waves.

However, what about the way another person or persons may consciously view your life path can that cause a physical change in your life? Unfortunately the answer is yes. If people in your everyday life hold a negative view of you or your life path they can unconsciously create a negative impact on your life. The Magi referred to these people as unwittingly casting the 'evil eye'. For this reason it is imperative that, where possible, you should always surround yourself with positively minded people who, for the most part, view your life in a constructive & positive way and wish only the best for you. The simple act of another person or persons holding an optimistic view of your life path will cause positive waves of affirmative reality's to manifest & help to create positive opportunities and blessing in your life. The Magi were well aware that all any person needed to do to change or improve their life path was simply to change their own personal perception of their reality. For a Magi trained in the ancient mystery schools from an early age this was as easy

as turning a page of a book in ones mind's eye. However for a regular person occupied with the normal up and downs of everyday life even the idea of performing this seemly easy form of though magic or Magi, as it was more commonly known, was totally beyond their understanding.

To achieve this, the Magi used their vast knowledge and understanding of celestial creative consciousness to encode talismanic items {in clay, wood, parchment & metal} to call on each Angel by name, requesting that they befriend & help the talismans owner. As this talismanic request mirrors the very reason for their own existence the Angels must comply and befriend the owner of the talisman and consciously view their life through angelic eyes. Resulting in waves of positive realities opening up in the life of the talismans owner. Example: If the celestial consciousness requested to view the life of the talismans owner was the angel Haniel, the Angel responsible for all matters connected with love & relationships, then Haniel will cause beneficial opportunities & situations connected with matters of love & relationships to manifest in the life of the talismans owner. However if the celestial consciousness requested to view the life of the talismans owner was the angel Raphael. The Angel responsible for all financial & monetary matters and also spiritual protection and health, then Raphael will cause beneficial opportunities & situations for financial advancements to manifest in the life of the talismans owner and also help guide them away from danger. These divine principles apply to all talismans. A talisman is created in accordance with the original angelic Magi formulae designed to attract the spiritual energies of the celestial Angels. All Talismans are usually encoded with the celestial names of two or more angels and their combined associated planetary influences to create a host of highly concentrated Angelic blessings.

The Magi, in time, remedied this with the creation of powerful celestial seals which later became known to history as 'talismans'. The Magi were aware that all humans are watched

over by seven compassionate angelic beings they called the seven sages. The biblical Hebrews came to refer to these benevolent beings as the seven shining ones. However, this name was changed by the early Judaic Christians to the name that has come down to us today as - the Seven Archangels. The Magi used their extraordinary understanding of the all-embracing universal celestial consciousness to create talismans that would cause the celestial beings known as angels to befriend and consciously view the life path of the talismans owner. The Magi reasoned that if a human beings perception of their reality caused that view of reality to come into physical existence. Then, by creating talismans to encourage angelic beings to consciously view a person's life path, the Angels own highly positive view of creation will cause new highly positive reality's to manifest in the life of the talismans owner and create new opportunities and angelic good fortune to come into existence.

What is the difference between a Talisman and an Amulet?

Talismans work in a positive way by attracting the casual cosmic energies and Angelic influences necessary to create whatever

affect or result its owner may desire. Amulets help neutralise and repel certain forces and situations before they can promote an undesired or negative effect. To some extent talismans & amulets achieve the same result: An amulet which helps to ward off misfortune is after all doing much the same thing as a talisman which sets out to procure good fortune. Amulets are known to have the power to guide their owner away from danger & misfortune.

This talisman invokes the Father to awaken you in Consciousness of the Source of God.

The invocation for the talisman above is general. And needs more details when the invocation is done. The following prayers and explanations are the many elements you can put together to do an efficient invocation. Not all of these elements are necessary. As you utilize more of these elements, the amplitude of the effect will grow in the invocation. The minimum elements needed are: the printed talisman on any material and the names to invoke. If possible, use one white candle placed in front of you. You can do the invocation anytime of the day or night, and it is encouraged to mentally recite the specific names of God throughout the day, using them as mantras.

Say your invocation facing West. Use 1 white candle, placed in front of you. Use sandalwood, amber or copal incense. You can print the talisman on real parchment or paper and laminate it to protect it. The colours for the talisman are gold and or silver. Say the invocation at sunset, I recommend saying it 10 times.

After the invocations, you can chant the Hebrew names of God as many times as you wish, one after the other. You can also finish the chant with one last invocation. the invocation consists on calling the names of God involved with the type of influence you want to create with the talisman. The actual demand is done in your prayer, using your own words. Be short and simple.

The Invocation:

Say:-

By the Father, and the Christ and the Holy Spirit, I invoke the Light of Eheieh, from the Light of Ain Soph Aur, to consecrate this talisman, to give it Life with your Power, and (my request).
Amen. Amen. Amen.

Chant the following names:

Eheieh, Eheieh, Eheieh, Keter, Ain-Soph-Aur, Aum.

After each process, which can take from 5 minutes to many hours, breathe deeply and softly a few times. and drink some water. A meditation is recommended.

Eheieh is pronounced AIR YEAH

In the centre, the talisman invokes energy of God that will dominate the rest of your talisman. It is the power source of the talisman. In the points of the star, there is a movement affecting the invoked energy. It radiates produces, generates or gives. It determines the way that the initially invoked energies will manifest the demand. In the inner circle, called the receptacle, is the type of energy you want to receive. It is the subject of the

demand.

In this talisman, you invoke the energy of the Father. It is the first emanation of the absolute, the Source of all things.

You are giving it movement of the Father. They produce the awakening and the remembering of the highest Self, the impulse from within to merge with God. It pierces the veil.

You are setting a receptacle for the Father. It is to receive the Light of Consciousness.

Your demand/request is supported by the energies of the Unlimited Light of the absolute. The result will be subtle and powerful.

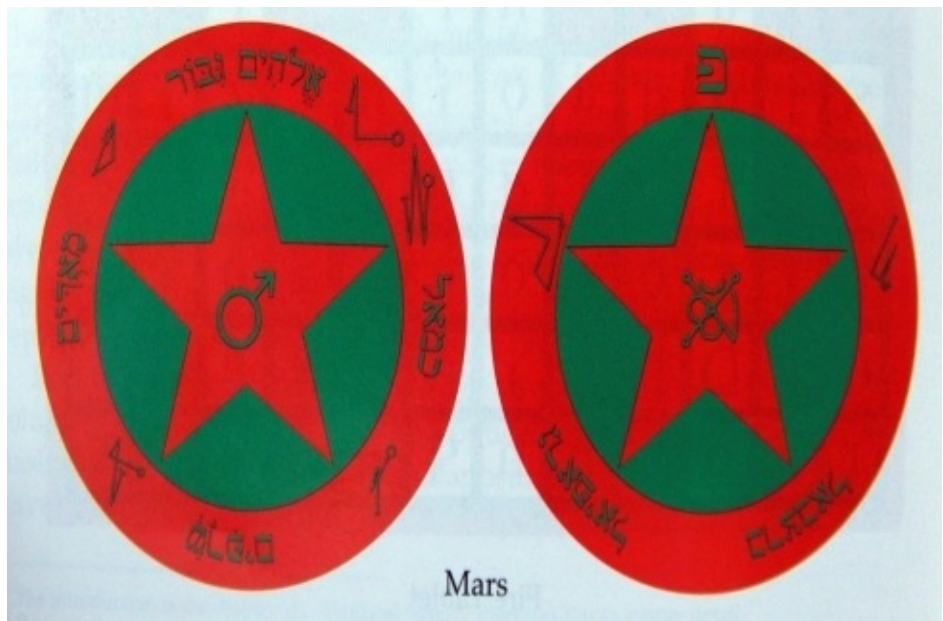

You are using the star of Truth. The effects will be more concrete and directed.

You are encouraged to look at the effects of your talisman before you create it and start the ritual.

Whatever your goal, seek it in harmony and with joy.

The Seven Planetary Angelic Seals

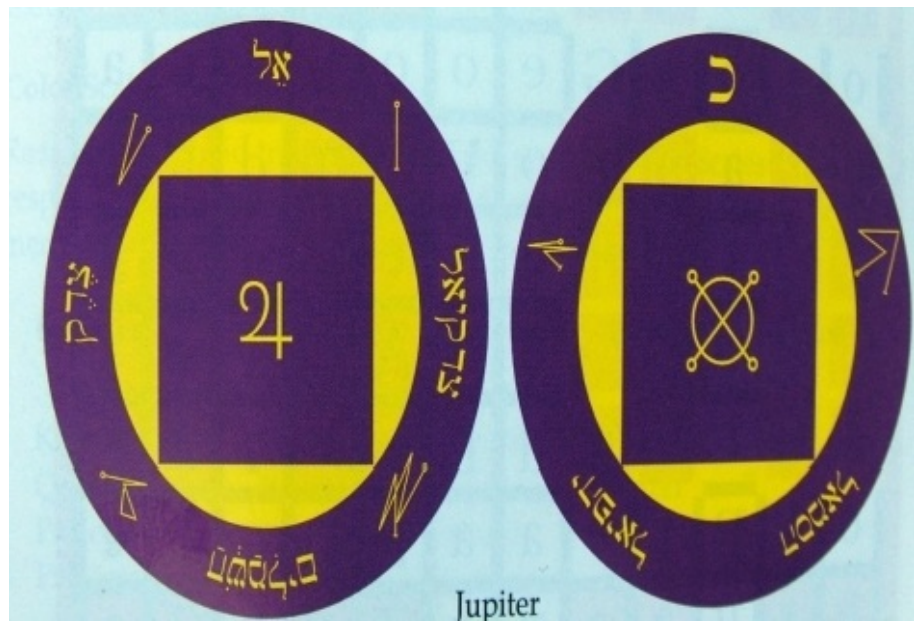

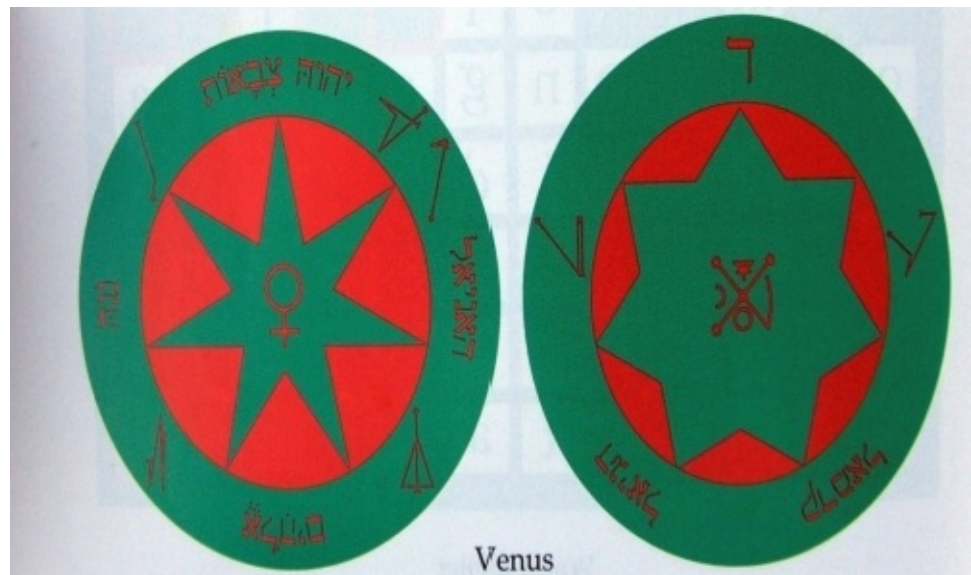

Mars

Mercury

Jupiter

Venus

The planetary seals above contain the 7 energies you can use them to hone in on a specific planetary field for your talismanic rituals. For example take the seal of Venus which is the green talisman print it out and once charged you can use it as a planetary talisman by placing it beside the talisman your making upon the alter so if your making a talisman for love then place this planetary seal to the left of it as you invoke the Venusian energies or the Jupiter seal if your making a talisman to bring in good fortunes and so on.

Here is a Jupiter talisman for luck, wealth, riches and all positive things associated with Jupiter:

The above talisman belongs to the Archangel Zadkiel and brings good fortune and blessings upon you. I highly recommend this talisman for anyone wanting help with good fortune in life.

The above talisman belongs to the Archangel of Wisdom, Jophiel's name means "Beauty of God". His light is often called the sunshine ray of wisdom, illumination and creativity. Jophiel will show you the way to solving problems and renewing your energy through self-esteem. Jophiel attracts prosperity, confidence and good luck.

This Talisman is recommended for writers actors and performers .

How to charge and activate the Talismans,

Unless already stated how to charge the talismans for example for the I invoke the Father to awaken me in Consciousness of the Source of God Talisman this charging is not needed just the follow the instructions for that specific talisman. As for the other talismans I will give you the General instructions of activating all the talismans of this book. Place the Talisman on the table or alter along with the planetary seal and say 3 TIMES IN FRONT OF THE OBJECT TO BE ACTIVATED while glancing at the talisman:

HAEC DONA HAEC MUNERA HAEC SANCTA SACRIFICIA
ILLIBATA ALSASES LATORES ARAM ARADAM ADRADAM
FRUOISIERE ABE ABEUC ABEIC ABEICA CARMAR ACOC
JUA AHU HAI JOHAOC ABHA HICAAC

Visualize your intention for making the talisman then take your time with a strong commanding voice say the words above and after the words are said then blow on your talisman. It is done you have charged your talisman put it in a safe place if laminated you can carry it around with you which I recommend. You can also personalize your talisman after creating your talisman and before charging it write on the back of the talisman this:

SATOR

AREPO

TENET

OPERA

ROTAS

AEIOVOIEAV,

Then write your name and then proceed to power up your talisman you have just created a personalized talisman.

The above talisman incites love and sex as before you can personalize it.

The invocation

say:

By the Father, and the Christ and the Holy Spirit, I invoke the love of Yode-Hay-Varv-Hay Tzabaoth with the Powers of the universe(recite the 22 hebrew letters if you know them) to consecrate this Talisman, to give it Life with your Power, and (your request)

Then Chant the following names:

Yode-Hay-Varv-Hay Tzebaoth, Yode-Hay-Varv-Hay Tzebaoth, Netzah,Olam
Yesodoth Aum.

Every talisman has an influence in the universe and it projects its energies inside you within your aura, and to many places linked with your personal demand or request. These energies manifest in your life in the form of experiences and opportunities. This means that you will receive the result of these energies as shock in return, as well as the manifestation of your demand or request. Be careful with what you ask: you will definitely receive it. Take the time to think about the words you will use, be short simple and positive.

Do not ask anything that would, in any manner , hurt others; you will receive it intensified. Do not ask for less wounds; ask for healing. Do not ask for less bills; ask for more money. Your personality and your daily attitude also take part in the influence.

A talisman will not save you from any situation or personal problem. I will not change your character traits unless your willing to change. It will directly change something in you and your life. If you experience personal problems in your life, then seek a good friend or a therapy will help. A spiritual path is highly recommended, alone or with a teacher.

The above talisman invokes the light of God to bestow peace upon you.

Say your invocation facing north. Use 4 blue candles placed in 4 directions namely north, south

,east and west. Use sandalwood, amber incense. You can print the talisman on paper. Say the invocation at midnight, 4 times.

After the invocations, you can chant the Hebrew names of God as many times as you wish as before.
