Human behavior can be puzzling at times and our own behaviors can be the most puzzling of all. Sometimes it seems like we're fighting an uphill battle against our own negative emotions and limiting beliefs. We set goals and make resolutions with the best of intentions. Time and time again we stop short of our goals and give up on changing unwanted behaviors. We literally give up on ourselves.

Why does this happen? What do you need to learn in order to make the changes you want now? What if you could learn and experience everything you need to know to transform your life in one weekend?
